

Note: This product is distributed on a "try-before-you-buy" basis. All features described in this documentation are enabled. The registered version does not insert a watermark in your generated Flash Flip Books.

About A-PDF to Flipbook Pro

A-PDF to Flipbook Pro is a powerful flash page flipping book maker. This software can not only convert PDF to flipping book with animation page turn effect and sound, but also allows you to embed rich multimedia and links to the animation flip book.

With the application of multimedia and other functions, this flip book maker will jazz up your flip book and add more value to your page flip book. You can make your PDF more outstanding and will attract more and more readers.

Main Features

"Edit Pages" Application

"Edit Pages" application allows you to add multimedia, links, buttons and printable area to any page you like.

• Application of Rich Multimedia

- 1. Embed video or flash (FLV or SWF format) or even YouTube video.
- 2. Add sound file (MP3) to play music.
- 3. Add image and select an action type.
- Insert links

Insert internal links (page links) and external links (website links and e-mail links) to improve user experience.

• Add buttons

Add buttons to call new actions: go to page, open a link, call JavaScript function, open flash window, play audio and photo slideshow.

• Add printable area

Add printable area and your readers can print it out as coupon.

Output in Flexible Forms

A-PDF to Flipbook Pro enables you to publish the animation flip book in optional forms:

- Make HTML to turn it into a webpage and upload onto your site.
- Output in EXE form as a standalone executable file.
- Package in ZIP file to send to others.
- Create App format to view on Mac devices.
- Make mobile version that can run on tablet devices like iPad, iPhone, Android phones.
- Burn it to CD that can play on computer.

Customizable Features

1. Brand your flip book with approved logo and book title to show your corporate identity.

- 2. Choose template to match your book style, e.g. color or skin.
- 3. Add the background image for the flip book.
- 4. Add sound file (MP3) as background music, and define sound loops.
- 5. Enable or disable the function buttons like Home, About, Full Screen, Help, Print, Download, Zoom, Search, (Social) Share or Auto Flip.
- 6. Show "Home" button and define page URL to allow readers go to homepage with ease.
- 7. Add "About" button to show your or corporate info and contact info.
- 8. Add "Help Content File" (Image or SWF only) to guide your readers.
- 9. Add printing watermark file (Image or SWF only) such as your logo so that people can recognize you when they print out the file.
- 10. Select to open window in blank or self window.
- 11. Zoom function and vector technology provide readers with crystal clear quality.
- 12. Share flipbook via e-mail or social networks such as Facebook and Twitter.
- 13. Set access permission by encryption.
- 14. Enable auto flip and set flip interval and play counts; set auto flip when start up or not.
- 15. Select flash font type for the page turning book.
- 16. Change and choose color for font, icons, background and toolbar to refresh readers' vision.
- 17. Support multiple international languages and you can choose two or more to

make languages switchable.

- 18. Define page thickness to make it feel more like an actual book.
- 19. Show corner flip effect to let readers know that they can drag the corner to turn page.
- 20. Set book margins and proportions for the flash PDF flipbook.
- 21. Set right to left (for example, Arabic) or left to right reading mode.
- 22. Choose hard cover for the flip book.
- 23. Use Minime Style to view flip book in a small window with defined proportion; and readers can switch to full screen with a simple click.
- 24. Add Google Analytics ID to analyze the statistics of your animation flip book.

Reader Experience

When your readers come to your flipbook, they can experience the advantages of the page turn technology as well as your flash page flipping book:

- 1. Experience realistic page flip effect as they do when reading real books.
- 2. Flip a hard cover of the flip book just like that of a real hardcover book.
- Turn page in different ways: Drag the page corner, click on page shadow, slide mouse wheel, enter page number, click on page control buttons, and control with keyboard arrows.
- 4. Use thumbnail and table of contents to search content.
- 5. Zoom to view clear content or view flip book in full screen.
- 6. View the book with auto flip instead of turning page manually.

- 7. Click buttons to watch video or YouTube video.
- 8. Enjoy the beautiful music while viewing book.
- 9. Print out the printable area as coupon.
- 10.Share the flip book with families, friends and colleagues easily (via e-mail or social networks).
- 11.View the flip book anytime and anywhere with their iPad, iPhone, Android phones.

Quick Start:

- 1. Launch the program via shortcut
- 2. Click Import PDF to import PDF file;
- 3. Edit pages with multimedia, links, printable area, etc;
- 4. Define parameters for PDF flipping book, such as logo, background, book

proportion and margins, and then click the "Apply Change" icon 🞑;

- 5. Click "Convert to Flipping Book" icon 🧏 to enter into Output interface;
- 6. Choose Output Type from HTML, ZIP, EXE, App (Also Make Mobile Version or Burn to CD).

°. •. •. •. ∞
Hint:

Click

Action Options icon to enter the link action interface:

Select an event to fire the related action (mouse down/up/move/over/out). You can define the link action as "Go to page", or open an online webpage, or even "Call Javascript function" to carry out your wanted interactive functionalities via defining Javascript function, open flash window, play audio and photo slideshow.

(1) Go to Page

Select "Go to page" and define which page to go, for example page 4

Go To Page: A, click" OK", then you can go to page 4 directly by clicking the page link.

(2) Open a link

Choose "Open a link" action, you should add URL URL: and define link target as blank, self, parent or top and you will go to where you want.

(3) Call Javascript action

Write down javascript function text in the box Function: and make sure the Javascript wrote into the index.html page, then you can call the Javascript function by clicking the action link.

(4) Open a flash window

Select "Open a flash window", then the "Open Window Action Properties" box

will pop up.

Select the window type and then select the file from your computer to imput text

content directly, define window caption, width and height.

(5) Play Audio

Select an audio file and choose auto play or not;

(6) Photo Slideshow

Select "Photo Slideshow", then it will pop up the below interface:

Add images from your computer, and press "OK". And when you click the link, the

photo slideshow will pop up.

2. Add movie that plays FLV

Clik III to add movie that plays FLV, and you will see the movie box

movie properties interface as below:

Select FLV movie and player skin color, define play and stop action, define interface size.

3. Add Image

Click to add an image, you can choose an image from your computer and define action options as above mentioned: go to page, open a link, call javascript function, open flash window, play audio and photo slideshow.

4. Add Sound

Click downward to the flipbook. You will see the music palyer , select sound from your computer and define mouse actions. When you open the

flipbook, just click **E** and the music will start to play.

5. Add SWF

Click define proportion for the SWF.

Swf Pro	perties			×
